

CHECK LIST FOR SOLVING THE RUBIK'S CUBE

Check Each Box As You Move Forward

STAGE 1:

- I found the white Rubik's Cube logo center piece and I'm holding my cube with the logo on top
- I am holding my cube at the correct angle of full front (see page 2)

STAGE 2:

- I found the blue/white edge piece
- I am holding the cube full front with the blue white edge piece on the right side before I do the sequence
- I moved the edge pieces using the move sequence instructions (page 3)
- I completed the white cross in the order of blue, then orange, green, and red

STAGE 3:

- I found a three color corner piece with white on it
- I moved the corner piece below the corner position it goes to on top
- I followed the sequence if the corner piece is on top in the wrong position (page 4)

STAGE 4:

- I have a vertical row of one color (see page 5)
- I know how to correct the edge piece if it's in the wrong position (see 'note' section on page 5)

STAGE 5:

- I matched the yellow pattern on top before getting the cross
- I have the yellow cross on the top (U) face (see page 6)
- I matched top (U) face to the correct pattern after each sequence (see page 7)
- My top (U) face is all yellow

STAGE 6:

- I located two (2) corners that are in the right position
- I positioned the correct corners in the back of the cube (see page 8)
- I followed the sequence to position all four (4) corners in the correct position
- I identified how many edge pieces are in the correct position
- I know I have to do the sequences more than once sometimes
- I identified in what direction the edge pieces need to be moved (see page 9)
- I SOLVED THE RUBIK'S CUBE!!!
